HOW TO PLAY

The object of the game is to destroy NOMAD before other enemies and obstacles destroy you!

THE SCREEN You're at the helm of the U.S.S. Enterprise. Your screen is divided into three sections. Each one shows you vital mission data:

A. GAUGES Tracks your score (Strategy Training Units) and monitors Enterprise defenses and weapons. Energy Shields (green lines) and Warp Drives (blue lines) are your two defenses. Photon Torpedoes (red rectangles) and Phasers (not shown on gauge) are your two weapons.

Energy Shields Activate automatically; protect Enterprise from enemy fire and damage.

Warp Drives Activate by pushing red fire button while pulling back joystick to gain high-speed maneuverability.

Photon Torpedoes Pull joystick back to destroy enemies in direct path of your Starship.

Phasers Activate unlimited number to destroy only one enemy at a time by pushing fire button.

B. RADAR SCANNERS Your overhead view of the battle zone. Shows you the position of the Enterprise and your Starbase while it maps the constantly changing location of obstacles and enemies.

C. VIEWER Simulates a 3-D view of the enemy and obstacle encounters. It's the view from the bridge of the Starship Enterprise.

D. SHIELD FORCE INDICATOR The console indicator changes color alerting you to the status of your Energy Shields

- Dark Green—5 or more shields
- Light Green—4 shields
- Yellow—3 shields
- Orange—2 shields
- Light Red—1 shield
- Red—ALERT! All Defenses Down!

G. GAME PLAY Now you are ready to play STAR TREK. The game is divided into ten Sectors (different skill levels). Each Sector has five different rounds:

1. Klingon Encounter
2. Klingon Encounter
3. Klingon Encounter
4. Klingon Encounter
5. NOMAD

Guide the Enterprise safely through a round of play and you automatically enter the next one.

After surviving all five rounds in a sector, you automatically move to the next. As you advance, your enemies become more aggressive and dangerous and your victories more rewarding!

K. KLINGON ENCOUNTERS In your quest to destroy NOMAD, you must first survive the attacks of the Klingon Battle Cruisers and Anti-Matter Saucers. The enemy vessels have the following characteristics:

 **The Blue Klingons** ignore the Enterprise but try to destroy the Starbases. If a Blue Klingon destroys a Starbase it turns white and sets out to ram the Enterprise.

 **The Grey Klingons** seek to destroy the Enterprise with Plasma Energy Orbs. They will keep enough distance from the Enterprise to avoid collision while attacking. When Blue Klingons turn white, Grey Klingons also turn white and try to ram the Enterprise.

 **Yellow Anti-Matter Saucers** appear randomly. If the saucer collides with the Enterprise, it attaches itself to the ship and drains all Warp Drive Energy.

All defenses and weapons are available for use during Klingon Encounters. If you dock with green Starbases, (by flying into them), damage to the Enterprise is repaired. An Energy Shield, a Photon Torpedo, and a Warp Drive unit are added to your Starship's armory, if needed. Up to 127 Shields and Photons can be stored up.

You may dock with a Starbase only once in each round. After docking, the Starbase changes from green to blue. The Blue Klingons attack Bases. Each Base's Shield can survive ten (10) hits. When there are 5 Shields left, the BASE FLASHES RED!

There are one (1), two (2) or three (3) bases per round.

NOMAD is your greatest danger. His destruction is your greatest victory!

You must hunt down and destroy NOMAD while avoiding its deadly missiles and the mines it lays in your path. If you strike a mine or are hit by one of NOMAD's missiles, your supplies are depleted. Skillful maneuvering and rapid fire of your Phasers are the key to your success. If you destroy NOMAD, the screen flashes a spectrum of colors and you receive maximum bonus points. Your Starship advances to the first round of the next, more difficult Sector. NOMAD cannot be destroyed by a Photon. You *must* use Phasers to destroy NOMAD!

Remember, your success means *safety* for the Federation!

STRATEGIC TIPS

After playing STAR TREK several times, you'll discover which techniques work best for you. Here are some tips you will find helpful in your mission:

THE KLINGON ENCOUNTER

- Keep the Enterprise moving—Klingons can't easily destroy a moving target.
- Store up Photon Torpedoes for later sectors when enemy Klingons are more numerous.
- Learn how to get Klingons to pursue the Enterprise in a group, and easily destroy them with one Photon blast.
- Use Warp to dodge Klingon's plasma. The Enterprise can not be harmed in any way while in Warp.

THE ANTI-MATTER SAUCER

- It always moves away from the Enterprise; to destroy it, make a swift about-face and fire away.

YOUR STARBASES

- Dock with your Starbase in early rounds to build supplies for more difficult rounds.
- Try *not* to dock in later rounds for increased bonus STU's.

NOMAD

- Be patient, observe NOMAD's movements.
- Avoid hitting or shooting mines, they will explode and deplete your supplies.
- Effective use of Warp Drive can allow you to position yourself near NOMAD.
- NOMAD places mines randomly. Try to get him as he travels across your path or while he is resting after reaching his destination.
